

# Save the date for the 10<sup>th</sup> Media & Learning Conference on 7-8 June 2023

*The Media & Learning Association's 10th annual conference is back in Leuven, Belgium on 7-8 June 2023. We look forward to celebrating our anniversary by learning from one another, getting inspired and changing the way people think about media in education!*

Our theme ***Media & Learning 2023: Where pedagogy meets media*** takes into account one of the most challenging tasks that educators face, namely how to incorporate media in all its manifestations into the learning process in the most efficient and effective way. Conference topics will range from re-using and repurposing media resources, using AI in higher education to engaging students in extended reality environments.

Media & Learning 2023 will be loaded with opportunities to share experience, discuss challenges and debate solutions as well to catch up with old friends and colleagues and meet new people.

This face-to-face conference is organised jointly between the Media & Learning Association and KU Leuven and will take place in the heart of Leuven, Belgium.

We look forward to seeing you in Leuven,
